PART 1 - AUDIT SCOPE

According to Article 127(7) of Regulation (EU) No 1303/2013 the audit authority is responsible to carry out audits on operations on the basis of supporting documents constituting the audit trail and verify the legality and regularity of expenditure declared to the Commission, including the following aspects:

- a) that the operation was selected in accordance with the selection criteria for the operational programme, was not physically completed or fully implemented before the beneficiary submitted the application for funding under the operational programme, has been implemented in accordance with the approval decision and fulfilled any conditions applicable at the time of the audit concerning its functionality, use, and objectives to be attained;
- b) that the expenditure declared to the Commission corresponds to the accounting records and that the required supporting documentation demonstrates an adequate audit trail;
- c) that for expenditure declared to the Commission determined in accordance with Articles 67(1)(b) and (c) and 109 of Regulation (EU) No 1303/2013 and Article 14(1) of Regulation (EU) No 1304/2013, outputs and results underpinning payments to the beneficiary have been delivered, participant data or other records related to outputs and results are consistent with the information submitted to the Commission and that the required supporting documentation demonstrates an adequate audit trail.

Audit was conducted during the period: 09/04/2018 - 27/08/2018 (on-the-spot verification on 3rd of May 2018 at the premises of the Project Partner)

PART 1.1 - Limitation of scope

There were no limitations of the scope.

PART 1.2 - AUDIT METHODOLOGY

The audit is carried out in compliance with international accepted auditing standards and the audit strategy, which is approved by the audit authority and group of auditors representing each Central Baltic INTERREG VA Programme Member State.

The audit process comprises of three stages:

a) Preparation and planning of the audit

In this stage legal regulations and other documentation, including from the management verification ex Regulation (EU) No 1299/2013, Article 23(4), needed for familiarizing with the selected operations were collected and analyzed. Also, interviews or checklists sent if needed for the planning of the audit, familiarizing with the functioning of the system, project files structure, the objectives and the status of implementation of the operations, the risk encountered during the implementation as well as those inherent to the type of operations.

b) Fieldwork

At this stage a whole range of interviews with responsible staff were conducted, documents were gathered and testing was performed. In order to attain the audit objectives during the audit we

tested all applicable audit areas. We performed the audit using the checklists for the several audit areas which enabled us to verify the requirements laid down in European and national legislation.

With the aim to attain the audit objectives, the fieldwork was carried out including on the spot visits on 03/05/2018.

c) Reporting

This stage encompassed activities related to the preparation of the Draft Report and the contradictory procedure where auditee has been granted 10 working days to reflect on the audit report, the inclusion of their replies and comments and the submission of the Final Report. This stage is not used if there are no findings.

Final report: 27/08/2018
