

## Scholarships granted

Deadline for applications	Name (scholarship)	Home institution (mentor)	Host institution (mentor)	Name of the cooperation project
01.11.2009	Ana Rebane (Post Doc)	Tartu University (Pärt Peterson)	University of Zurich (Cezmi A. Akdis)	MicroRNAs in Atopic Dermatitis
01.04.2010	Tiiu Tõrra (doctoral candidate)	Tartu University (Tiina Randlane)	Swiss Federal Institute for Forest, Snow and Landscape Research, WSL (Christoph Scheidegger)	Genetic diversity and evolutionarily significant unist of indicative macrolichens - GeDiLi
01.04.2010	Marek Metslaid (Post Doc)	Estonian University of Life Sciences (Kalev Jõgiste)	Swiss Federal Institute for Forest, Snow and Landscape Research, WSL (Thomas Wohlgemuth)	Plasticity of Scots pine recruitment under simulated climate change
01.04.2010	Gunnar Nurk (Post Doc)	Tartu University (Enn Lust)	Paul Scherrer Institut (PSI) (Rudolf P.W.J. Struis)	Influence of polarization, temperature, and chemical nature of poisoning sulphur compounds on the Ni-S surface chemistry of IT-SOFC electrodes: An in-situ S K-edge XAS study
01.11.2010	Mart Saarna (Post Doc)	Tallinn University of Technology (Lauri Kollo)	EMPA (Marc Leparoux)	Mechanical Investigations on Improved Nano-reinforced Aluminium Composites MIZNAC
01.11.2010	Katrin Männik (doctoral candidate)	Tartu University (Andres Metspalu)	University of Lausanne (Alexandre Reymond)	Characterization of the syndromes of the short arm of human chromosome 16
01.11.2010	Marek Maasikmets (doctoral candidate)	Estonian University of Life Sciences (Erik Teinemaa)	Paul Scherrer Institut (PSI) (André Prévôt)	SAFE, Source apportionment of the fine particulate matter in Estonia
01.11.2010	Mari Nelis (Post doc)	Tartu University (Andres Metspalu)	University of Geneva Medical School (Stylian os. E. Antonarakis)	GenVarCNCs; The genetic variability of conserved noncoding sequences of human genome
01.11.2011	Regina-Nino Kurg (doctoral candidate)	Tallinn University (Tõnu Viik)	University of Fribourg (Gianfranco Soldati)	HTIC, Husserl's theory of image consciousness (Bildbewusstsein)

## Scholarships granted

Deadline for applications	Name (scholarship)	Home institution (mentor)	Host institution (mentor)	Name of the cooperation project
01.11.2011	Ardo Ilaste (Post Doc)	Tallinn University of Technology (Marko Vendelin)	University of Bern (Ernst Niggli)	Ryanodine receptor phosphorylation and arrhythmias
01.11.2011	Monika Mortimer (Post Doc)	National Institute of Chemical Physics and Biophysics (Anne Kahru)	University of Geneva (Vera Slaveykova-Stratcheva)	NanoUniCell, A comparative study of the effects of metal and semiconductor nanoparticles on two unicellular eukaryotic organisms
01.11.2012	Aire Raidvee (Post Doc)	Tartu University (Jüri Allik)	École Polytechnique Fédérale de Lausanne (Michael Herzog)	OPERE, Origins of perceptual errors revealed by high density EEG (Where is the bottleneck in visual perception?)
01.11.2012	Tõnn Talpsepp (Post Doc)	Tallinn University of Technology (Enn Listra)	University of Zürich (Thorsten Hens)	EECLAI: The effect of economic cycles on the learning ability of investors
01.11.2012	Jaak Samarütel (Post Doc)	Estonian University of Life Sciences (David Arney)	Vetsuisse Faculty University of Bern (Rupert Bruckmaier)	CFR "The time course of formation of different colostrum components and their regulation"
01.11.2012	Hannes Luidalepp (Post Doc)	Tartu University (Tanel Tenson)	University of Bern (Norbert Polacek)	dorRNA - Identification and characterisation of sRNAs in dormant bacteria
01.11.2012	Ülo Siirak (doctoral candidate)	Tartu University (Kristi Viiding)	University of Bern (Gerlinde Huber-Rebenich)	CATULLUS: Roman poetry and Renaissance humanists: Catullus obscenity viewed by some Italian and French 15th-16th centuries commentators.
01.04.2013	Liis Rebane (Post Doc)	National Institute of Chemical Physics and Biophysics (Mario Kadastik)	ETH Zürich (Guenther Dissertori)	CMS@HE - Preparing for the new LHC data: measurement of the Higgs boson coupling to top quarks and improvement of track reconstruction with the CMS detector
01.04.2013	Kristiina Mark (doctoral candidate)	Tartu University (Tiina Randlane)	Swiss Federal Institute for Forest, Snow and Landscape Research, WSL (Christoph Scheidegger)	Barcoding the lichen symbiosis: Variation of mycobiont -photobiont interactions in geographic and ecological gradients (LiCode)

## Scholarships granted

Deadline for applications	Name (scholarship)	Home institution (mentor)	Host institution (mentor)	Name of the cooperation project
01.04.2013	Vitali Grozovski (Post Doc)	Tartu University (Enn Lust)	University of Bern (Marcus Doherr)	MCEIMSURV -Multicenter survey to assess cattle farmers' perceptions and control efforts related to Eimeria spp.infection in cattle in Estonia, Switzerland, Germany and other European countries
01.11.2013	Jaanus Sooväli (Post Doc)	Tartu University (Roomet Jakapi)	University of Basel (Markus Wild)	Origins of Concepts: Genealogy and Begriffsgeschichte
01.11.2013	Aleksei Suslov (doctoral candidate)	Tartu University (Mart Ustav)	University of Basel (Markus Heim)	Role of Hepatitis C Virus (HCV) RNA-Dependent RNA Polymerase NS5B activity in HCV pathogenesis, persistence, and regulation of antiviral defense in humans
